LOVENEET SINGH

Batala, India • +91-7696823218 • chahal.loveneet@gmail.com • LinkedIn

CORE SKILLS

- .NET Core
- Asp.Net MVC
- Angular/Angular JS

- C#
- Entity Framework
- Linq

- SQL Server
- Node JS
- React JS

PROFESSIONAL EXPERIENCE

Evolvous Ltd., Calgary, Canada   July 2021 – Present
Solutions Architect & Full Stack Developer
- Spearheaded development of the company's flagship web application built on .NET Core 8.0, Angular 14 and SQL Server 2019, reducing page load times by 21% and improving SEO ranking by 10 spots.
- Identified and optimized underperforming API endpoints in client Angular applications, decreasing average response time by 420ms and reducing bounce rates by 5% month-over-month.
- Designed and implemented SQL Server databases with optimized indexes supporting over 1 million daily transactions with 99.9% uptime.

Rivaire Inc, Mohali, India   2019 – 2020
Team Leader
- Managed team of 6 developers through full software development life cycle from gathering requirements to final deployment.
- Led migration of client-server system to Azure cloud, reducing operating costs by 40%.
- Successfully orchestrated the launch of Minimum Viable Products (MVPs) for LIC Lead generation products, demonstrating strategic planning and execution skills.
- Implemented agile methodologies to streamline product development processes, ensuring timely delivery and alignment with business objectives.
- Led migration of client-server system to Azure cloud, reducing operating costs by 40%.

Osvin Web Solutions, Chandigarh, India   2018 – 2019
Assistant Team Leader
- Involved in developing the business logics, designing Database and Architecture.
- Designed & helped to complete the re-engineering application of data flow with <1% downtime.
- Instructed developers on how to use RDMS tools to create software applications.
- Responsible for the quality and coding of software components that make up complex systems.
- Consulted with clients and project managers to assess business requirements.

Ameba Technologies, Mohali, India   2017 – 2018
Senior Software Engineer
- Design, write, read, test, and correct code for new software.
- Identified and addressed potential project risks, creating contingency strategies.
- Implemented effective verification methods to manage project scope, schedule, and costs.
- Analyse information to recommend and plan the installation of new systems or modifications.
- Delivered project outputs to clients, ensuring quality standards were met.

Matrix Solutions, Chandigarh, India   2016 – 2017
Asp.net Developer
- Acquired diverse project execution methodologies, enhancing efficiency and outcome.
- Developed 11 custom REST APIs in .NET supporting mobile and web applications handling 500K+ requests daily.
- Created custom reusable components using .NET Framework libraries, streamlining development efforts for multiple projects.
- Worked on Xamarin and Ionic hybrid apps to achieve MVP.
- Design, write, read, test, and correct code for new software.

Soft Solutions, Chandigarh, India   2013 – 2015
Asp.net Developer
- Work as intern and design, write, read, test, and correct code for new software and applications.
- Acquired proficiency in optimizing performance of .NET applications for high load scenarios.
- Implemented caching layers and query optimizations decreasing average API response time from 2.5s to 200ms.
- Performed comprehensive testing of developed functionalities utilizing unit tests and automated test scripts prior to production rollout, reducing post-release issues.

EDUCATION

PUNJAB TECHNICAL UNIVERSITY, Jalandhar, India   2009 – 2013
B.Tech in Information Technology
